EnSt 357			X
EnSt 539		X ²	
Pol Sci 340			X
Pol Sci 3752			X

(1) Additional eligible courses (new courses, special offerings) will be posted on the EECE web site as they become available; mapping onto BS ChE degree requirements to be determined on a course-by-course basis

(2) 3 units maximum

In summary, through careful selection of courses for the ENVE minor, all requirements for the 21 units of ChE electives can be met and every course taken for the minor can count in some way towards a requirement for the BS ChE degree (Core, ChE elective, Social Science).
